Summary

Enthusiastic and highly motivated Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, and hands-on experience with modern frameworks and tools. Proficient in using Bootstrap, Material-UI, and ReactJS to create responsive and interactive web applications. Skilled in state management using Redux Toolkit and experienced with version control through Git and GitHub. Familiar with package managers such as npm and yarn, and adept at optimizing development workflows with Webpack. Committed to continuous learning and passionate about leveraging ES6+ features to write clean and efficient code. Ready to contribute to dynamic development teams and grow within the tech industry.

Skills

WEB TECHNOLOGIES:

HTML • CSS • BOOTSTRAP • JAVASCRIPT • REACTJS • MATERIAL-UI • REDUX-TOOLKIT • GIT • GITHUB • AXIOS • BABEL • WEBPACK • VSCODE • DOM • BOM

Experience

MYGOMINDS — HYDERABAD
FOOD SEARCH APPLICATION (https://github.com/SravaniPurimitla/FoodSearch-Application.git) — 04/2024 - 05/2024

- Developed a dynamic and user-friendly Food Search Application designed to help users find and explore various recipes based on their search queries
- The application allows users to search for food items and displays detailed information about each recipe, including ingredients, preparation steps, and nutritional information.
- Ensures a seamless experience across various devices, including desktops, tablets, and smartphones.Utilizes Material-UI and custom CSS for a polished and user-friendly interface.
- This project demonstrates my ability to integrate multiple technologies to create a full-fledged web application, highlighting my proficiency in front-end development and API integration
- Maintained code versioning with Git, hosted the repository on GitHub for collaborative development, and documented the project in a README file.
