• <https://github.com/SravaniPurimitla> • Hyderabad

SUMMARY

Proficient in HTML5, CSS3, and Javascript, with experience in building responsive web apps using Bootstrap, Material-UI, and React Js. Skilled in Redux Toolkit for state management and Git/GitHub for version control. Familiar with npm, yarn and Webpack for optimizing workflows. Committed to ES6+ features for clean, efficient code and eager to contribute to dynamic development teams

SKILLS

Industry Skills:

Html5 • CSS3 • JAVASCRIPT • DOM • BOM • ES6 • REACT JS • REACT HOOKS • AXIOS • REDUX-TOOLKIT • BOOTSTRAP • MATERIAL-UI • GIT • GITHUB • BABEL • WEBPACK • VSCODE • NPM • YARN • WEBPACK • JSX • Core java • MySQL • Python • OOPS • RESTful apis • JSON • Functional Programming

PROJECTS/OPEN-SOURCE

Cartify

HYDERABAD

<https://github.com/SravaniPurimitla/Cartify.git>

05/2024 - 08/2024

- Engineered modern and responsive user interfaces using React Js, HTML5, CSS3, and Javascript, incorporating Bootstrap and Material-Ui for an elegant design
- Implemented Redux Toolkit for efficient state management and React Router DOM for intuitive navigation, enhancing real-time data handling and user journey.
- Utilized Axios for HTTP requests and API integration, enabling dynamic content updates and interactions, and managed code versions with Git and GitHub for organized development.
- Applied best practices for performance optimization and responsiveness, improving load times and user engagement while focusing on a user-friendly interface and seamless checkout process

Feast Finder

Hyderabad

<https://github.com/SravaniPurimitla/FOOD-SEARCH-APPLICATION.git>

01/2024 - 04/2024

- Developed a dynamic Food Search Application allowing users to find and explore recipes, with detailed information on ingredients, preparation, and nutrition
- Ensured a responsive design across desktops, tablets, and smartphones using Material-UI and custom CSS, demonstrating strong front-end development and API integration skills
- Managed code versioning with Git, hosted on GitHub for collaboration, and documented the project thoroughly in a README file

EDUCATION

Rami Reddy Subbaramireddy Engineering College

NELLORE

BACHELOR OF TECHNOLOGY .EEE .2023 .8.12 CGPA

06/2019 - 05/2023

COURSEWORK

Front-End Development

MYGOMINDS

Date period

HTML5, CSS3, Bootstrap, Javascript, React js, Material-UI, Axios, Redux-Toolkit, npm, yarn, webpack, babel, git, github, ES6 and above

- UI Development: Engineered the user interface using React JS with HTML5, CSS3, and Javascript, implementing a modern and responsive design with Bootstrap and Material-UI for an elegant user experience.
- State Management: Implemented Redux Toolkit for efficient state management, ensuring consistent and real-time data handling across the platform
- Routing & Navigation: Integrated React Router DOM to facilitate smooth and intuitive navigation, enhancing the overall user journey through the platform
- API Integration: Utilized Axios for handling HTTP requests and integrating external APIs, enabling dynamic content updates and interactions
- Version Control: Managed code versions and collaborated with the development teams using Git and GitHub ensuring organized codebase management and effective team collaborations
- Performance Optimization: Applied best practices for performance optimization and responsiveness, improving load times and user engagement
